## VET Empowerment through innovative and inclusive Learning Approaches

[www.vela-project.eu](http://www.vela-project.eu)

### Let's talk about VELA

The VELA project stands against the educational crisis, supporting the VET providers in using innovative approaches and digital technologies for teaching and learning. Educators will be empowered with tangible tools to enrich their cultural background and to support a comprehensive approach to innovation, and the use of digital technologies for pedagogical, technical, and organisational change. VELA will contribute to the implementation of the “Digital Education Action Plan” promoting the effective use of the self-reflection tool and the exchange of good practices with other European stakeholders, cooperating to achieve flexible and permeable learning pathways.

**SUPPORT VET PROVIDERS**  
**STRENGTHEN VULNERABLE GROUPS**  
**BUILD A SUSTAINABLE AND RESILIENT SOCIETY**

### Dear Reader

The **Manual: Analysis of the “VELA” field of action and Exploitation of Best Practices** (Project Result 1) is now ready and **online!**

The Manual includes specific suggestions, recommendations, and guidelines for the development of a user-friendly package. focuses specifically on already developed online learning methodology and applications, to have a validated starting point to define and develop high quality and inclusive digital solutions to teach/learn.

In the Manual you will find:

- ✦ EU and international research/case study concerning inclusive digital education methods and validated best practices.
- ✦ EU and international research/case study concerning the benefits of online learning and inclusion through innovative digital tools.
- ✦ Direct input from VET providers emerged to their responses to the survey previously redacted by the partnership of the project.
